EXPERIENCE

PURE Insurance - Graphic Design Summer Associate
White Plains, NY (hybrid) | May 2023 - August 2023
- Collaborated with the marketing team to create signage and digital assets under tight deadlines.
- Utilized Adobe Illustrator, Photoshop, and Figma to ensure cohesive designs across various platforms.
- Fostered personal growth by incorporating feedback and critique received throughout various project milestones.

iSchool - Front End Web Development Teaching Assistant
Syracuse University | December 2022 - May 2023
- Guided students in learning the fundamentals of web development by practicing HTML, CSS, and Javascript.
- Educated students on the importance of key concepts including wireframing, accessibility, and responsiveness.
- Facilitated office hours to offer additional support.

University Union - Website Designer
Syracuse University | August 2022 - Present
- Maintained the University Union website by regularly updating content.
- Ensured accessibility and cohesiveness between the website and additional design assets.
- Excelled at meeting tight deadlines and collaborating with other boards in the organization.

PROJECTS & COURSEWORK

IST 363: Advanced Front End-Web Development
August 2023 - December 2023
- Utilized emerging web technologies to create robust, high-quality front-end web interfaces.

IST 263: Introduction to Front-End Web Development
August 2022 - December 2022
- Incorporated a user-based approach to planning, designing, implementing, and maintaining multimedia documents for the web.
- Independently developed a fully responsive and accessible website for final project.

IST 256: Applications Programming for Information Systems
January 2023 - May 2023
- Solved real-world problems using Python, APIs, PANDAS, and widgets.
- Independently coded a college finder software that uses APIs and PANDAS to filter through data and return schools matching the user's search criteria.
